

**My name is David Barrionuevo,
from Madrid, Spain.**

I graduated in Sports Science. Majored in Golf, Judo, Swimming and Cycling.

After 10 years of coaching experience in golf, judo and swimming I came to China cycling on my bike in 2008 and arrived in Beijing to see the Olympic Games.

From then I started a new page of my life but still carrying on my career path as golf teacher. I have also worked with a professional cycling team when they were competing in tours in China as media/sponsor coordinator. Now I moved to Shanghai and looking for new challenges to take on.

30 MARZO - 20:00H

In the next sections are examples of my experience in giving talks about bicycle travels and my media relations with different cycling/sports-related media, both working for and also being reported by them and others.

Talks in culture centers, book stores, elementary and high schools, bicycle cafes...

I share my experiences with many people through talks and hope by this to promote the usage of bicycles. I do not speak specifically of my travels in these talks, but try and bring more people's attention to the cycling lifestyle.

Great friends who share this vision has supported me and organized events to make this happened.

I have been invited to speak in Caceres, Burgos, Madrid in Spain and Beijing, China.

Writing articles as collaborator in Biketo, China (www.biketo.com).

PR & Media coordinator for the Pro-Cycling team Burgos BH in Asian tours.
